

2023 Scholarship Overview

McKee Wellness Foundation supports the northern Colorado community through education, patient care, community programs, and clinical support. Through the generosity of donors, the Foundation maintains various scholarships to assist local students.

The scholarship selection process evaluates each applicant's involvement within their school and/or workplace, service to their community, and involvement in extracurricular activities. We understand that applicants may face a variety of barriers to higher education, so we also evaluate one's resiliency and their ability to overcome obstacles. Scholarship applicants must submit three letters of recommendation. These may be from teachers, employers, coaches, mentors, counselors, and/or volunteer work supervisors.

2023 scholarship opportunities:

Marge Schafer Nursing Scholarship – Established in honor of Marge Schafer, this scholarship is awarded to an applicant who intends to pursue an education in nursing through an accredited program.

Marcellus Healthcare Scholarship – Mrs. Florence Marcellus recognized education as a determinant of an individual's quality of life. This scholarship was created to assist individuals seeking a formal education in a healthcare-related field.

Banner NOCO Scholarship – To recognize staff who live and work in the community, this scholarship assists any employee of a Northern Colorado Banner Health facility or their immediate family member. This scholarship can be utilized toward any course of study through an accredited university or community college.

Scholarship applications will be accepted from February 1 through March 31, 2023. Applicants need only submit one general application packet to be qualified for consideration across any/all available scholarship opportunities. Applications are reviewed by the McKee Wellness Foundation Scholarship Committee, and scholarship recipients will receive notification in May 2023.

If selected for a scholarship, students must adhere to the following expectations:

1. Maintain minimum academic requirements (2.0 GPA) while in college and be on track to graduate within stated timeframe.
2. Work in a paid position or participate in a club, team, or other on-campus activity during the academic year.
3. Provide regular updates to and maintain communication with McKee Wellness Foundation.
4. Meet deadlines to complete scholarship requirements and renewal documents, including but not limited to proof of enrollment, class schedule, and transcripts.
